The Petitioner requests the Hon'ble Commission to allow truing up for FY 2014-15 as provided in the aforementioned table. The Petitioner is detailing the rationale for truing up of some of the key issues in the subsequent paragraphs.

2.1.1 POWER PURCHASE EXPENSE

One of the major cost components of the distribution companies is cost of power, which in the present instance relate to the costs incurred by UPPCL. For the purpose of truing up of power purchase cost of Discoms, we have to re-determine the bulk supply tariff based on the actual power purchased by UPPCL and actual cost incurred for such purchase.

In the Tariff Order for FY 2014-15, the Hon'ble Commission had approved the power purchase of 87,178 MU at UPPCL level. The Petitioner humbly submits that the actual power purchase in FY 2014-15 was 87,571 MU at a value of Rs. 36,855 crore at overall UPPCL level.

The Petitioner has claimed the power purchase cost during truing up based on the philosophy as mentioned below:

- It has calculated the allowable energy available for transmission at State periphery by grossing up the actual energy received at the Discom end by the approved / actual intra-state transmission losses, whichever is lower.
- Thereafter to work out the allowable power input, the above derived energy available for transmission at State periphery has been grossed up by actual Inter-State Transmission Losses (PGCIL Losses)
- The allowable power purchase input has been multiplied by the revised bulk supply Tariff to derive the allowable power purchase cost for truing up.

In this regard, the Petitioner humbly submits that the substantial rise in actual transmission loss level for FY 2014-15, is due to increase in Inter-State transmission losses. The actual Inter-State transmission losses approved for FY 2014-15 were 1.65% against which the actual inter-state transmission losses for FY 2014-15 is 2.88%.

In this regard Petitioner further requests the Hon'ble Commission to kindly approve the additional power purchase quantum due to increase in Inter-State transmission losses, as the same is beyond the control of the Petitioner, while approving the revised Bulk Supply Tariff. Further in line with the approach adopted by the Commission in the last Tariff Order dated August 1st, 2016, the

Petitioner has also included the O&M expenses incurred by UPPCL to the tune of Rs. 176.41 crore, for procuring the power on behalf of Discoms. Accordingly such O&M expense for the purpose of Truing up has been considered as a part of Bulk Supply Tariff.

Considering the aforementioned philosophy, the allowable power purchase expenses for determination of trued up Bulk Supply tariff for FY 2014-15 is computed at Rs. Rs. 37,031.72 crore and trued up Bulk Supply Tariff is Rs. 4.52 per kWh as depicted in the table below:

Table 2-2: Allowable Power Purchase Input and Bulk Supply Tariff for FY2014-15 under truing up

Particulars	Unit	Approved	Audited	True-up Petition
Power Purchase	MU	87,178.35	87,571.23	87,571.23
Inter-State Losses	%	1.65%	2.88%	2.88%
Energy Available at State periphery for Transmission (MU)	MU	85,739.91	85,048.29	85,048.29
Intra-State Losses	%	3.670%	3.67%	3.67%
Energy Input into Transmission-Distribution Interface (MU)	MU	82,593.25	81,927.02	81,927.02
Total Transmission Losses	MU	4,585.59	5,644.22	5,644.21
Total Transmission Loss	%	5.26%	6.45%	6.45%
Energy available at Discom End	MU	82,592.76	81,927.02	81,927.02
Power Purchase Cost (including PGCIL charges and O&M expenses incurred by UPPCL)	Rs. Crore	31,668.16	37,031.72	37,031.72
Revised Bulk Supply Tariff	Rs/kWh	3.83	4.52	4.52

The Hon'ble Commission in all of its previous True-up Orders from FY 2008-09 to FY 2013-14 had considered a philosophy, wherein the efficiency target of Distribution loss level, had been considered as controllable parameter, and thereupon the power purchase cost consequent to underachievement of Distribution loss was disallowed. To maintain consistency with the approach adopted by the Hon'ble Commission, the Petitioner has calculated the allowable power purchase input at discom end by grossing up the actual energy sales by the approved Distribution loss target or actual Distribution losses, whichever is lower. Thereafter, the allowable power purchase input has been multiplied by the Trued-up Bulk Supply Rate to derive the allowable power purchase cost for FY 2014-15 under truing up as shown in the table below:

Table 2-3: Trued up Power Purchase Cost for DVVNL in FY 2014-15

Particulars	Unit	Approved	Audited	True-up Petition
Power Purchase(Order / Actual)	MU	18,936.18	19,128.87	19,128.87
Sales	MU	13,634.05	11,429.29	11,429.29

Particulars	Unit	Approved	Audited	True-up Petition
Distribution Loss Target	%	28.00%	40.25%	28.00%
Allowable Power Purchase	MU			15,874.01
Trued up Bulk Supply Tariff	Rs/kWh			4.52
Allowable Power Purchase Cost				8,646.42

2.1.2 TRANSMISSION CHARGES

In the Tariff Order for FY 2014-15 for the Petitioner, the Hon'ble Commission has approved the Transmission Charges of Rs. 366.81 crore (@ Rs. 0.1937 per kWh) towards a projected power purchase of 18,936.18 MU.

As per the audited accounts, the Petitioner has incurred Rs. 303.64 crore towards transmission charges.

It is submitted that the trued up transmission charges payable to UPPTCL towards intra-state transmission are to the tune of Rs. 280.02 crore which have been computed by multiplying the allowable power purchase input of 15,874.01 MU MU (determined in foregoing section) by the trued up transmission charge of Rs. 0.1764 per kWh which has been traced from the True-up Petition filed by the UPPTCL before the Hon'ble Commission for FY 2014-15.

Table 2-4: Allowable Intra-State Transmission Charges for DVVNL for FY 2014-15

Particulars	Unit	Approved	Actuals	True-up Petition
Units Wheeled	MU	18,936.18	19,128.87	15,874.01
Trued up Transmission Charge	Rs/kWh	0.1937	0.1587	0.1764
Transmission Charges	Rs Crore	366.81	303.64	280.02

Accordingly, the Petitioner submits that, against the approved intra-state transmission charges of Rs. 366.81 crore, the allowable transmission charges for FY 2014-15 are to the tune of Rs. 280.02 crore.

2.1.3 OPERATION AND MAINTENANCE EXPENSES

Operation and Maintenance Expenses (O&M expenses) comprises of employee expenses, repair and maintenance expenses and administrative and general expenses. Each element of O&M expenses have been examined in detail in the succeeding paragraphs.

The Petitioner submits that the actual gross employee expenses were Rs. 309.77 crore as against Rs. 399.36 crore approved by the Hon'ble Commission in the Tariff Order for FY 2014-15. The employee expenses capitalised as per audited accounts are to the tune of Rs. 147.40 crore as

against Rs. 59.90 crore approved in the Tariff Order. Thus, the net employee expenses as per audited accounts are Rs. 162.37 crore as against Rs. 339.46 crore approved in the Tariff Order.

Further, the Petitioner submits that the actual gross A&G expenses were Rs. 100.86 crore as against Rs. 62.82 crore approved by the Hon'ble Commission in the Tariff Order for FY 2014-15. The A&G expenses capitalised as per audited accounts are to the tune of Rs. 41.33 crore against Rs. 9.42 crore approved in the Tariff Order. Thus, the net A&G expenses as per audited accounts are Rs. 59.53 crore as against Rs. 53.40 crore approved in the Tariff Order.

The actual repair and maintenance expenses for FY 2014-15 were Rs. 316.19 crore as against Rs. 227.11 crore approved by the Commission in the Tariff Order

Further, the Hon'ble Commission in its previous True-up Orders instead of allowing the O&M expenses as per the Audited Accounts has considered a normative approach in line with Regulation 4.3 of Distribution Tariff Regulations, 2006, which stipulates the methodology for consideration of the O&M Expenses, wherein such expenses are linked to the inflation index determined under these Regulations. The relevant provisions of the Distribution Tariff Regulations, 2006 are reproduced below:

"4.3 Operation & Maintenance Expenses (O&M):

1. The O&M expenses comprise of employee cost, repairs & maintenance (R&M) cost and administrative & general (A&G) cost. The O&M expenses for the base year shall be calculated on the basis of historical/audited costs and past trend during the preceding five years. However, any abnormal variation during the preceding five years shall be excluded. For determination of the O&M expenses of the year under consideration, the O&M expenses of the base year shall be escalated at inflation rates notified by the Central Government for different years. The inflation rate for above purpose shall be the weighted average of Wholesale Price Index and Consumer Price Index in the ratio of 60:40. Base year, for these regulations means, the first year of tariff determination under these regulations....."

Similarly, the Petitioner, in the instant True-up Petition has also considered the same methodology as followed by the Hon'ble Commission, for seeking Truing-up of O&M expenses. Accordingly, the Petitioner has calculated the inflation index for FY 2014-15 based on the weighted average index of WPI and CPI. The WPI and CPI index has been considered, as available on the website of Economic Advisor, Ministry of Commerce and Industry, Ministry of Labour, respectively. Accordingly, the calculated the inflation index for seeking approval of O&M expenses for FY 2014-15 is depicted in the table below:

Further, the petitioner has considered the base year expenses equivalent to the trued up O&M expenses of FY 2013-14 as approved by the Hon'ble Commission in its True-up Order dated August 1st, 2016 and has escalated the same using the inflation index of FY 2014-15, as shown in the table above, to derive the allowable O&M Expenses for FY 2014-15.

Further, in addition to the above allowable O&M expenses based on inflation index, the Distribution Tariff Regulations, 2006 provide for incremental O&M expenses at 2.5 % on addition to asset during the previous year. Regulation 4.3 (3) of the Distribution Tariff Regulations, 2006 specifies as follows:

"4.3 Operation & Maintenance Expenses (O&M):

3) Incremental O&M expenses for the ensuing financial year shall be 2.5% of capital addition during the current year. O&M charges for the ensuing financial year shall be sum of incremental O&M expenses so worked out and O&M charges of current year escalated on the basis of predetermined indices as indicated in regulation 4.3(1)."

Accordingly, the Petitioner has worked out the incremental O&M expenses for FY 2014-15 based on the capital addition for FY 2013-14 and escalating the same using the inflation index of FY 2013-14. The incremental O&M expenses for FY 2014-15 as claimed by the Petitioner in the instant True-up Petition, is depicted in the table below:

2.1.4 INTEREST ON LONG TERM LOANS

Interest cost is an uncontrollable cost as the interest rate regime is determined by various external factors and the actual loans taken are consequential to the capital expenditure undertaken by the Petitioner.

The Hon'ble Commission in its previous tariff and true-up orders had considered a normative tariff approach with a gearing of 70:30. Considering this approach, 70% of the capital expenditure undertaken in any year was considered to be financed through loan and balance 30% was been considered to be financed through equity contributions. The portion of capital expenditure financed through consumer contributions, capital subsidies and grants was separated and the

depreciation and interest thereon was not charged to the consumers & beneficiaries. The amounts received as consumer contributions, capital subsidies and grants were traced from the audited accounts. Subsequently, the financing of the capital investment was worked out based on the gearing ratio of 70:30 and allowable depreciation was considered as normative loan repayment.

The Petitioner for the purposes of this true up petition for FY 2014-15 has claimed the interest and finance charges based on the same philosophy.

Considering the Capital Work in Progress balances (CWIP) and Gross Fixed Asset (GFA) balances as per audited accounts, the Petitioner has derived the actual capital investments undertaken by it in FY 2014-15. The details are provided in the table below:

Table 2-8: Capital Investments in FY 2014-15

(All figures in Rs Crore)

Particulars	Derivation	True up Petition

The table below summarises the amounts received towards consumer contributions, capital grants and subsidies in FY 2014-15:

Thus, the eligible financing of the capital investment is depicted in the table below:

Thus, from the above tables it is seen, that the Petitioner has made an investment of Rs. 1260.75 crore in FY 2014-15. The consumer contributions, capital subsidies and grants received during the corresponding period is Rs. 342.32 crore. Thus, balance Rs. 918.43 crore have been funded through debt and equity. Considering a debt equity ratio of 70:30, Rs. 642.90 crore or 70% of the capital investment is approved to be funded through debt and balance 30% equivalent to Rs. 275.53 crore through equity. Allowable depreciation for the year has been considered as normative loan repayment.

The actual weighted average rate of 10.16% has been considered for computing the eligible interest expenses. The opening balance of long term loan has been considered from the loan balance as per audited accounts for FY 2014-15.

Considering the above, the gross interest on long term loan is Rs. 168.66 crore. The interest capitalisation has been considered at the same rate as per audited accounts. The computations for interest on long term loan are depicted below:

2.1.4.1 INTEREST ON CONSUMER SECURITY DEPOSITS

In terms of the Regulation 4.8(3) of the Distribution Tariff Regulation, the Licensee has to pay interest to the consumers at bank rate or more on the consumer security deposit. Further, section 47(4) of the Electricity Act 2003, states that "the distribution licensee shall pay interest equivalent to the bank rate or more, as may be specified by the concerned state Commission, on the security

referred to in sub-section (1) and refund such security on the request of the person who gave such security"

The Petitioner humbly submits that the actual interest on consumer security deposit paid in FY 2014-15 is to the tune of Rs. 32.90 crore as against Rs. 29.41 crore approved in the Tariff Order. It is humbly prayed that the variation may be allowed in the true up.

2.1.4.2 BANK AND FINANCE CHARGES

The Petitioner humbly submits that is has incurred bank and finance charges to the tune of Rs. 0.17 crore as per audited accounts towards expenditures like bank charges, finance charges, etc as against Rs. 0.47 crore approved in tariff order and the same be allowed in the true up for FY 2014-15.

2.1.4.3 INTEREST ON WORKING CAPITAL

In the Tariff Order for FY 2014-15, the Hon'ble Commission had allowed Rs. 104.99 crore towards interest on working capital. The Distribution Tariff Regulations provide for the normative interest on working capital based on the methodology outlined in the Regulations. Accordingly, the Petitioner hereby claims Rs. 99.54 crore towards interest on working capital for FY 2014-15 as computed in the table below:

2.1.5 DEPRECIATION

The actual depreciation expense charged in the audited accounts is Rs. 73.24 crore. However, the same has been accounted for considering the depreciation rates prescribed by the Companies Act, 1956.

The Petitioner has computed the allowable depreciation expense on the GFA base as per audited accounts for FY 2014-15 and at the rates approved by the Commission in the Tariff Order for FY 2014-15 i.e., @ 7.84%. The Petitioner has computed the depreciation only on the depreciable asset base and has excluded the non-depreciable assets such as land, land rights, etc.

Considering this philosophy, the gross entitlement towards depreciation has been computed at Rs. 433.80 crore.

The Petitioner has traced the figures in respect of depreciation charged on assets created out of consumer contributions, capital grants and subsidies from the audited accounts. This equivalent depreciation amounting to Rs. 97.28 crore has been reduced from the allowable depreciation for FY 2014-15.

Thus the allowable depreciation for FY 2014-15 is Rs. 336.51 crore as depicted in the table below:

Table 2-15: Net Allowable Depreciation for FY 2014-15

Further, in line with the Hon'ble Commission directives, the Petitioner is also submitting the Fixed Assets Register from FY 2012-13 to 2014-15 prepared as specified in the Distribution Tariff Regulations, 2006, duly matching with the Audited accounts of the Petitioner. Therefore it is requested, that the full depreciation for FY 2014-15 should be allowed to the Petitioner, as claimed under the Truing-up Petition.

2.1.6 PRIOR PERIOD EXPENSES AND OTHER EXPENSES

The Petitioner submits that it prepares its financial statements in compliance with Generally Accepted Accounting Principles (GAAP's) and Accounting Standards issued by Accounting Standards Board of Institute of Chartered Accountants of India.

There are certain prior period items which have been identified and incorporated in the audited financial statements for 2014-15. As per Accounting Standards (AS 5) (Revised) on 'Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies' states:

'Prior period items are income or expenses which arise in the current period as a result of errors or omissions in the preparation of the financial statements of one or more prior periods'

Also there have been some other miscellaneous expenses which have been identified and incorporated in the financial statements for FY 2014-15, such as Provision for Loss against theft of Fixed Assets pending investigation, Provision for Bad & Doubtful Dues from staff on accounts or various reasons, etc.

However, the Hon'ble Commission in its previous true-up order has disallowed the claim of the Petitioner towards inclusion of Prior-period expense/income in the ARR of the licensee and directed the Petitioner to file a separate petition for approval of prior period expenses / incomes, clearly indicating the head-wise year-wise bifurcation of prior period expenses / incomes clearly indicating the impact of such expenses / incomes on various ARR components. The said directive of the Commission is reproduced below:

"4.7.6 Thus, in line with the approach adopted by the Commission in its earlier True up Orders and Judgment of the Hon'ble APTEL, the Petitioner is again directed to file a separate Petition for approval of prior period expenses / incomes. The Petition should clearly indicate the head-wise year-wise bifurcation of prior period expenses / incomes clearly indicating the impact of such expenses / incomes on various ARR components, and such impact should not exceed the normative expenses for any particular year. Based on the data submitted by the Petitioner, the Commission after scrutiny and prudence check shall consider the expenses under the above head as it deems fit."

Therefore, the Petitioner in line with the Commission's directive has not claimed any expenses towards prior period expenses / incomes in the instant true-up petition for FY 2014-15. However it reserves the right to approach the Commission for allowing of period expenses / incomes from FY 2008-09 to FY 2014-15, with a separate petition providing head-wise year-wise bifurcation of prior period expenses / incomes and indicating the impact of such expenses / incomes on various ARR components.

2.1.7 PROVISION FOR BAD AND DOUBTFUL DEBTS

The Tariff Order for FY 2014-15 did not allow any amounts towards Provision for Bad and Doubtful Debts. The Petitioner humbly submits that such expenses are legitimate business expenses. It is further submitted that provision for bad & doubtful debts are accepted accounting principle even in sector like Banking where the provisioning of un-collectable dues are considered as a normal commercial practice.

The entitlement towards provision for bad and doubtful debts has been computed at 2% of the closing revenue receivables as per audited accounts of the relevant financial year.

Particulars	Rs Crore
Total Revenue Receivables from Retail Sales	6,631.95

Further, in past the Hon'ble Commission has disallowed the claim of the Petitioner towards allowance of provision of Bad and Doubtful Debts on the ground of lack of approved transparent policy on identifying and writing off bad debts. In this regard, the Petitioner hereby submits that the complete policy for identifying and writing off the Bad and doubtful debts, clearly depicting the procedure adopted for writing off bad debts along with policy framework for managing bad debts is submitted along-with the petition for the Commission's perusal marked as Anneure-5.

2.2 REVENUE SIDE TRUING UP**2.2.1 REVENUE FROM SALE OF POWER**

The Hon'ble Commission had projected revenue from sale of power of Rs. 6,523.12 crore for FY 2014-15. The audited accounts have reported the actual revenue from sale of power to be Rs. 6,749.03 crore (including delayed payment surcharge) towards electricity sales of 11,429.29 MU.

2.2.2 NON TARIFF INCOMES

The Petitioner submits that against the projected non tariff incomes of Rs. 12.34 crore in the Tariff Order, the actual non tariff incomes have been Rs. 38.47 crore.

Discoms have entered into a tripartite MOU in order to improve the

operational and financial efficiency of the U.P. Discoms to enable financial turnaround of the Discoms. Uttar Pradesh Power Corporation Limited (UPPCL) on behalf of its subsidiary Discoms namely Dakshinanchal Vidyut Vitran Nigam Limited (DVVNL), Kanpur Electricity Supply Company Limited (KESCO), Madhyanchal Vidyut Vitran Nigam Limited (MVVNL), Paschimanchal Vidyut Vitran Nigam Limited (PVVNL), Purvanchal Vidyut Vitran Nigam Limited (PuVVNL) has signed the "Tripartite MOU" with Ministry of Power (GoI) and Government of Uttar Pradesh (GoUP).

The Petitioner in its tripartite UDAY MOU has committed a Distribution Loss trajectory from FY 2015-16 to 2019-20, till the license is in sustainable financial position. The summary of distribution losses as committed by the Petitioner under the Uday Scheme is detailed in the table below:

Distribution Licensee	FY 2016	FY 2017	FY 2018	FY 2019	FY 2020
DVVNL	27.20%	23.82%	20.07%	16.25%	12.10%
MVVNL	23.14%	21.52%	19.16%	16.09%	11.80%
PVVNL	21.49%	20.20%	18.18%	15.20%	11.80%
PuVVNL	22.67%	21.57%	19.73%	16.43%	12.20%
KESCO	25.58%	22.51%	18.91%	15.13%	11.80%
Total	23.56%	21.71%	19.18%	15.90%	11.96%

The Hon'ble Commission in its previous Tariff Order dated August 1st, 2016 has stated that the loss reduction trajectory projected by the licensee's for FY 2015-16 to FY 2019-2020 in the UDAY MOU seems to be more realistic and has therefore considered the Distribution Loss trajectory as well as AT&C Loss trajectory as agreed in UDAY Scheme and has accordingly approved the Distribution Loss targets of the Distribution Licensees for FY 2016-17, as specified under UDAY Scheme.

In this context the Petitioner in order to evaluate its operational performance has conducted a commercial analysis comparing the distribution losses achieved for FY 2015-16 (provisional) vis-à-vis the distribution losses agreed under the 'UDAY' scheme. The said comparison is depicted in the table below:

Table 4-2: Operational Performance of Distribution Licensee's for FY 2015-16

Particulars	DVVNL	MVVNL	PVVNL	PuVVNL	Kesco	Total
Actual Distribution Losses for FY 2015-16	27.79%	22.24%	18.66%	23.02%	20.13%	22.53%
Distribution Losses agreed in the UDAY scheme	27.20%	23.14%	21.49%	22.67%	25.58%	23.56%

As discernible from the above table, all the Distribution Licensees have been almost successful in achieving the distribution loss trajectories committed under the UDAY scheme. Collectively

discoms have been able to perform better and have ended up with lower Distribution Losses in comparison to the commitments made under the UDAY scheme.

Therefore the Petitioner is positive and determined that it would also be able to achieve the target Distribution Losses as agreed in the UDAY scheme and has thus for the purpose of projecting the Sales forecast for the MYT Period encompassing financial years FY 2017-18 to 2019-20, has considered the Distribution Losses as in line with the commitments made under the UDAY scheme.

As MYT Distribution Tariff Regulations, 2014 defines the Distribution Losses under the Controllable Factor and further Regulation 11.2 of the said regulations; provide the mechanism for allowing the licensee to share the losses on account of controllable factor, the Petitioner hereby takes the liberty to approach the Hon'ble Commission at the time of truing-up for allowing the sharing of losses to the Petitioner in case of under achievement of the targeted distribution losses.

Based on the aforementioned sales forecast and loss levels, the energy balance for the MYT period 2017-18 to 2019-20 is presented in the table below:

Table 4-3: Energy Balance for 1st MYT Control period for DVVNL

5. MULTI YEAR TARIFF FOR FY 2017-18 TO FY 2019-20

The Hon'ble Commission has issued MYT Distribution Tariff Regulations, which require that the Distribution Licensee shall file Aggregate Revenue Requirement (ARR) complete in all respect along with requisite fees as prescribed by the Commission. The ARR Petition shall contain details of estimated expenditure and expected revenue that it may recover in the ensuing financial year at the prevailing rate of tariff. Further the Distribution Tariff Regulations require that ARR shall separately indicate Aggregate Revenue Requirement (ARR) for Wheeling & Retail Supply function embedded in the distribution function. Till such time complete segregation of accounts between Wheeling and Retail Supply Business takes place, ARR proposals for Wheeling and Retail Supply Business shall be prepared based on an allocation statement to the best judgment of the distribution licensee. The Hon'ble Commission in MYT Distribution Tariff Regulations has broadly classified cost incurred by the licensee as controllable & uncontrollable costs. Uncontrollable cost include fuel cost, increase in cost due to changes in interest rate, increase of cost due to inflation, taxes & cess, variation of power purchase unit costs etc. In its Tariff Order for 2007-08, the Hon'ble Commission used allocation methodology for segregation of Wheeling & Retail Supply business function of ARR. The Petitioner has adopted the same methodology for deriving wheeling charges, as the complete segregation of accounts between Wheeling and Retail Supply business has not yet been completed.

5.1 COMPONENTS OF ANNUAL REVENUE REQUIREMENT

The Hon'ble Commission notified Uttar Pradesh Electricity Regulatory Commission (Multi Year Distribution Tariff) Regulations, 2014 on May 12th, 2014. Regulation 24 of the MYT Distribution Regulations provides the principles for determination of ARR wherein the Aggregate Revenue Requirement for the Distribution Business of the Distribution Licensees for each year of the Control Period, shall contain the following financial parameters:

- Cost of power procurement;
- Transmission & Load Dispatch charges;
- Operation and Maintenance expenses;
 - Employee Expenses
 - Repair and Maintenance Expenses
 - Administrative & General Expenses
- Depreciation;
- Contingency Reserves;
- Interest on Loan;

 मुख्य अभियन्ता (वाणिज्य)

- Interest on Working Capital;
- Bad Debts;
- Return on Equity;
- Income Tax;
- Non-Tariff Income; and
- Income from Other Business

The Petitioner in the current petition is filing the ARR for the 1st Control Period i.e. FY 2017-18 to FY 2019-20 for the kind approval by the Hon'ble Commission. In estimating the ARR the main objective of the Petitioner is to reduce or at least contain the expenses to the extent possible thereby reducing the cost burden on the beneficiaries. In FY 2014-15 and 2015-16, the Petitioner has endeavored to limit most of the expenses within the budget approved by Hon'ble Commission in the respective Tariff Orders with some exceptions which were totally beyond the control of the Petitioner.

In the MYT period, the Petitioner has made plan for capital investment matching with the system requirement. In spite of the Petitioner's effort to control expenses the total Revenue Requirement has risen mainly due to increased capex which is needed due to strengthen the distribution system to cater the demand and supply gap during the control MYT period.

The detailed analysis & estimate of all the elements of ARR for the 1st Control Period have been presented in the subsequent sections with appropriate explanations. The cost elements of ARR have been estimated based on the audited accounts of FY 2014-15 in line with the Commission's Order dated February 23rd, 2017, wherein the Hon'ble Commission has shifted the 'Base Year' from FY 2016-17 to 2014-15.

The Audited Accounts for FY 2014-15 and provisional accounts for FY 2015-16 are enclosed herewith and marked as 'Annexure-2&3'.

The MYT Distribution Regulations suggest for formulation of an escalation index linked with appropriate indices/rates like Consumer Price Index (CPI) and Wholesale Price Index (WPI) as notified by Central Government for different years.

As per the MYT Distribution Tariff Regulations for determination of Employee Cost as a part of Operation & Maintenance expenses the years under consideration, the Employee Cost of the base year shall be escalated by consumer price index (CPI), adjusted by provisions for expenses beyond the control of the Licensee and one time expected expenses, such as recovery/adjustment of terminal benefits, implications of pay commission, arrears, Interim Relief etc. Norms for calculating CPI inflation would be the average increase in the Consumer Price Index (CPI) for immediately preceding three financial years.

मुख्य अभियन्ता (वाणिज्य)
द.वि.वि.नि.लि. आगरा

Further for determination of A&G Expenses as a part of Operation & Maintenance expenses the years under consideration, the A&G expenses shall be escalated by wholesale price index (WPI) and adjusted by provisions for confirmed initiatives (IT etc. initiatives as proposed by the Distribution Licensee and validated by the Commission) or other expected one-time expenses. The norms for calculating WPI inflation would be the average increase in the Wholesale Price Index (WPI) for immediately preceding three financial years.

Other than above, wherever the MYT Distribution Regulations are silent over the methodology for working out the escalation factor, the Petitioner in the instant Petition has worked out the inflation rate as the weighted average of Wholesale Price Index and Consumer Price Index in the ratio of 60:40.

Therefore it is imperative to first calculate an Escalation index based on the guidelines provided in the MYT Distribution Regulations.

ESCALATION INDEX / INFLATION RATE

The MYT Transmission Regulations issued by Hon'ble Commission provides that expenses of the base year shall be escalated at Inflation/Escalation rate notified by Central Government for different years. The inflation rate for Employee Expense shall be the average increase in the Consumer Price index (CPI) for immediately preceding three financial years. Therefore, for the purpose of this MYT, the Petitioner has used this methodology in arriving at Escalation Index for Employee Expenses as 5.39% and Escalation Index for the A&G Expenses as 0.95% for the control period. Further the inflation rate worked out as the weighted average of Wholesale Price Index and Consumer Price Index in the ratio of 60:40 at 2.73%, has been considered for the MYT Period. The calculation of Escalation/ Inflation Index is given in following table:

5.2 POWER PURCHASE COSTS

The MYT Distribution Tariff Regulations provides that the distribution licensee shall have flexibility of procuring power from any source in the country. However it shall procure power on least cost basis and as per merit order principle. A two-part tariff structure shall be adopted for all long term contracts to facilitate merit order dispatch. The cost of energy available from State Generating Stations shall be assessed as per tariffs approved by the Commission and that of energy from central sector stations shall be taken as per tariffs approved by Hon'ble Central Electricity Regulatory Commission. The cost of energy from other sources shall be assessed as per the power purchase/banking/trading agreements and tariffs approved by the Hon'ble Commission. The cost of power purchase from Independent Power Producers (IPPs) within the State shall be as per the tariffs determined in accordance with UPERC (Terms and Conditions of Generation Tariff) Regulations. Similarly the cost of power purchase from IPPs outside the State shall be as per the tariffs and power purchase agreement approved by the Hon'ble Commission. Accordingly, the Petitioner has estimated power purchase cost for 1st MYT control period based on above guiding

मुख्य अभियन्ता (यांत्रिक)
दशविद्युतनिलो, भागसा

factors provided in the regulations. Some key assumptions considered in forecasting power purchase units & costs are given below:

- Actual power purchase cost and units of FY 2014-15
- Provisional power purchase cost and units for FY 2015-16
- Trend observed in the previous and current year.
- Impact of loss reduction initiatives.
- Estimated growth in sales.
- Conversion of Un-metered Consumers to Metered Consumers
- Share of expected capacity available from various generators to the UPPCL/DisCom.

In the MYT period, the Petitioner has projected aggregate T&D losses for overall UPPCL level, which shows reduction in commercial as well as technical losses. The reduction in these losses will be achieved by bringing the unauthorized use of electricity into the billing net and accurately measuring the consumption of electricity as well as reduction in technical losses by replacing /installing adequate capacity equipments.

Distribution licensees are purchasing power from UPPCL at the rate of bulk supply tariff decided by the Hon'ble Commission where as UPPCL procures power from various generating stations i.e. central as well as state generating stations on behalf of distribution companies. UPPCL is currently taking steps to ensure that its purchases are optimized with respect to merit order dispatch and avoid unscheduled interchange (UI) based on frequency deviations from the prescribed band. Purchases are currently being optimized on a "short-term" day-to-day and hour-to-hour basis. The current power procurement plan is based on an exercise of merit order dispatch and probabilistic analysis conducted on monthly basis.

The detailed source wise Power Procurement Plan and "merit order" dispatch for each year of the MYT period has been detailed in the Business Plan of the Licensee submitted along with this Petition.

The total power purchase quantum along with the yearly inter-state transmission charges (PGCIL) as envisaged in the MYT Petition, are summarized below:

Table 5.1-3: Power Purchase Summary

Power Procurement Cost from UPPCL by DisCom:

The MYT Distribution Tariff Regulations state that the total power purchase cost for distribution licensee's requirement shall be estimated on the basis of merit order principle. Presently UPPCL is carrying out the function of power procurement for bulk supply to DisComs. UPPCL purchases power from various generators i.e. central & state generating stations, IPPs, etc and supplies to various DisComs of the state at the bulk supply rate notified by the Hon'ble Commission as GOUNP has yet not allocated individual PPAs to State DisComs. As a result cost of power purchase for the distribution companies from UPPCL would be uniform (bulk supply tariff - BST). Hence BST has been determined under the principle that all DisComs would have paid the same average price during the MYT period. The derivation of the bulk supply tariff is depicted in the table below:

Table 5.1-4: Computation of the Bulk Supply Tariff

Further, in line with Regulation 20 of the MYT Distribution Regulations, 2014 the UPPCL on behalf of all the Discoms, from FY 2017-18, will claim the consolidated Incremental Power Procurement Cost at the end of each quarter as per the timelines stipulated in the Regulations. Such incremental cost would be calculated as per the formula provided in Regulation 20.2 and 20.3 of the MYT Distribution Regulations.

In line with regulations 20.1.(d) of MYT Distribution Regulations, the Distribution Licensee will submit the details of the incremental cost incurred and to be charged to all consumers for the entire quarter, along with the detailed computations and supporting documents as may be required for verification by the Commission within first 28 days of the quarter end.

5.3 TRANSMISSION CHARGES

The inter-state transmission charges payable by the UPPCL to PGCIL during the MYT period as projected in the table below. The PGCIL charges consequent to inter-state transmission is being levied on energy procured from NTPC, NPCIL, NHPC, SJVNL, Tehri, TALA and others generator supplying power from outside the boundary of the state. These charges have been incorporated in Power Procurement Cost. The petitioner submits that while considering power procurement to meet the State's requirement, losses external to its system i.e., in the Northern Region PGCIL system need to be accounted for. The availability of power for the Petitioner (i.e. at UPPCL system boundary) from these sources gets reduced to the extent of these losses and the Petitioner has accordingly incorporated them while drawing up the energy balance and merit order dispatch for meeting the State requirement.

The intra state transmission charges for the MYT period payable by Petitioner are on the basis of actual energy received & uniform charges are to be paid by all the Distribution Licensees proportionate to the energy delivered to them. The Transmission licensee is also performing the function of SLDC as such SLDC cost is embedded in the transmission charges. The projections of transmission charges have been traced from the ARR/MYT Tariff Petition filed by U.P. Power Transmission Corporation Ltd (UPPTCL) for the 1st MYT control period filed before the Hon'ble Commission.

In such Petition U.P. Power Transmission Corporation Ltd has projected transmission charge at the rate of Rs. 0.2071 per kWh for FY 2017-18, Rs. 0.2365 per kWh and Rs. 0.2622 per kWh in FY 2019-20, Accordingly licensee has estimated the cost of intra state transmission charges for the MYT period in the tables given below.

5.4 OPERATION & MAINTENANCE EXPENSES

The MYT Distribution Tariff Regulations, 2014 mandates the Commission to stipulate a separate trajectory of norms for each of the components of O&M expenses viz., Employee cost, Repairs and maintenance (R&M) expenses and Administrative and General Expenses (A&G) Expenses.

Regulation 25 of the MYT Distribution Regulations issued by the Hon'ble Commission provides the methodology for projection of Operation & Maintenance expenses for the control period. O&M expenses comprise of Employee costs, Administrative & General (A&G) Expenses and Repair & Maintenance (R&M) expenses. Further the detailed methodology stated in Regulation 25 of the MYT Distribution Regulations is re-produced as below:

"25. Operation & Maintenance Expense

(a) The Commission shall stipulate a separate trajectory of norms for each of the components of O&M expenses viz., Employee cost, Repairs and maintenance (R&M) expense and Administrative and General Expense (A&G) expense. Provided that such norms may be specified for a specific Distribution Licensee or a class of Distribution Licensees.

(b) Norms shall be defined in terms of combination of number of personnel per 1000 consumers and number of personnel per substation along with annual expenses per personnel for Employee cost; combination of A&G expense per personnel and A&G expense per 1000 consumers for A&G expenses and R&M expense as percentage of gross fixed assets for estimation of R&M expenses:

(c) One-time expenses such as expense due to change in accounting policy, arrears paid due to pay commissions etc., shall be excluded from the norms in the trajectory.

(d) The expenses beyond the control of the Distribution Licensee such as dearness allowance, terminal benefits etc. in Employee cost etc., shall be excluded from the norms in the trajectory.

(e) The One-time expenses and the expenses beyond the control of the Distribution Licensee shall be allowed by the Commission over and above normative Operation & Maintenance Expenses after prudence check.

(f) The norms in the trajectory shall be specified over the control period with due consideration to productivity improvements.

(g) The norms shall be determined at constant prices of base year and escalation on account of inflation shall be over and above the baseline.

Thus, the MYT Distribution Tariff Regulations, 2014 provides for determination of the Employee cost norm, which would evidently be done pursuant to the benchmarking study. The Discom has successfully completed its benchmarking study of operational parameters in line with the MYT Distribution Tariff Regulations, 2014 and has also submitted the report to the Hon'ble Commission. Further, as per the observations and comments of the said benchmarking report the number of personnel per 1000 consumers in case of DVVNL is 1.92 as compared to the statistical mean of the data of sample Discoms (excluding UP Discoms) which is 2.85, which is owing to significant under deployment of personnel against sanctioned employee strength. Thus, the employee engagement has to be seen as working employee strength vs. sanctioned employee strength. It depicts that the actual deployment of staff is hardly 72% against the sanctioned employee strength, there by depicting that it is acutely under-staffed. The shortage is even more pronounced in respect of technical staff as compared to non-technical staff, which is reflective of both lower Employee cost per unit of energy sales as well as lower efficiency scores. Thus the Petitioner plans to increase its no. of employees in order to cater the increasing no. of consumers and sales on account of increase in supply hours and connecting the unconnected consumers of the state.

Accordingly the Petitioner in the instant Petition for the purpose of projecting the Employee costs and Administrative & General (A&G) Expenses, considering the observations made in the benchmarking report has claimed additional establishment expenses on the account that if there would have been no under-staffing and the actual employee strength would be parallel to the sanctioned employee strength, the actual establishment cost would have been higher as compared to what has been reflected in the audited accounts of the Petitioner. For this purpose the Petitioner has taken the financial year 2014-15 as the Base year for which the Audited accounts are available with the Petitioner.

5.4.1 EMPLOYEE EXPENSES FOR FY 2017-18 TO 2019-20

The Petitioner has computed the Employee expenses for the control period FY 2017-18 to FY 2019-20 as per the Regulation 25.1 of the MYT Transmission Regulations as below:-

"Employee cost shall be computed as per the approved norm escalated by consumer price index (CPI), adjusted by provisions for expenses beyond the control of the Licensee and one time expected expenses, such as recovery/adjustment of terminal benefits, implications of pay commission, arrears, Interim Relief etc., governed by the following formula:

$$EMP_n = (EMP_b * CPI \text{ inflation}) + Provision$$

मुख्य अभियन्ता (वाणिज्य)
दण्डविभाग, आगरा

Where:

EMP_n: Employee expense for the year n.

EMP_b: Employee expense as per the norm

CPI inflation: is the average increase in the Consumer Price Index (CPI) for immediately preceding three financial years.

Provision: Provision for expenses beyond control of the Distribution Licensee and expected one-time expenses as specified above."

Further the Petitioner has also considered the methodology provided in the Hon'ble Commission's approach note for calculation of O&M Expenses dated February 23rd, 2017. The Petitioner has considered the base year as '2014-15', for which the audited accounts are available as on the date of submission of the Multi-Year Tariff Petition. The Petitioner in the following table has worked out the norms depicting cost of per employee deployed based on the actual employee expenses incurred during the past five financial years:

Table 5.1-7: Norms - Rs. Crore Employee Cost per 1000' Consumers

Particulars	2011-12	2012-13	2013-14	2014-15	2015-16	Average of 5 years
Gross Employee Costs	239.83	249.42	272.37	309.77	264.78	0.099
No. of Consumers	2,280,313	2,426,261	2,566,021	3,099,144	3,229,391	
Norms per 1000 consumer	0.105	0.103	0.106	0.100	0.082	

The Petitioner has considered the above worked out norm of Rs. Crore employee cost per 1000' Consumers as the employee cost per 1000's consumer for the middle year i.e. for FY 2013-14 and has thereafter applied the yearly increase in the CPI inflation Index for FY 2014-15, 2015-16 and 2016-17 to reach the base year norms, for the purpose of calculation of employee expenses for the MYT Period. The determination of Rs. Crore employee cost per 1000' employee and thereafter the total employee cost in Rs. Crore for the Control period is depicted in the table below:

Table 5.1-8: Determination of Employee Cost per employee for FY 2017-18 (Rs. Crore)

Further in addition to above, the Petitioner also requests the Hon'ble Commission to allow the additional Employee Expenses on account of increase in No. of Employees to cover up the under deployment of the staff at the Discom end. The work out the same the Petitioner has considered the data for FY 2014-15, being the latest available audited accounts of the Petitioner and thus the same would provide a true and fair picture of the employee strength vis-a-vis the employee cost of the Petitioner.

The Sanctioned employee strength for DVVNL for FY 2014-15 is 9114, against which the actual no. of employees deployed are 6630, thus there is a shortage of 2484 employees resulting in under-performance of the discoms in terms of operational parameters. Therefore to determine the additional cost on account of increase in employee strength the Petitioner in the below table as a first step has worked out the Notional Gross establishment expenses for FY 2014-15, had been the complete employee sanctioned strength was deployed at the Petitioner's office, to reach at the Base value of Gross establishment cost for the year as detailed in the table below:

Table 5.1-9: Additional Employee Expenses for FY 2014-15

Particulars	Unit	Amount
Gross Establishment Expenses for FY 2014-15	Rs. Crore	310
Actual No. of Employees	No.s	6,630
Sanctioned Employees	No.s	9,114
Under Deployment of Employees	No.s	2,484
Gross Employee Expenses considering the full Sanctioned Employees being the Actual Employees	Rs. Crore	426
Additional Employee Cost for the year if total sanctioned employees are being hired	Rs. Crore	116.06

Thereafter the above derived employee cost has been escalated by average increase in the CPI inflation index for FY 2015-16 and 2016-17 to reach the base values for projection of additional employee cost for the MYT period as detailed in the table below:

Table 5.1-10: Additional Employee Expenses projected for the MYT Period (Rs. Crore)

Particulars	Base Value	2016-17	2017-18	2018-19	2019-20

Additional Employee Cost	116.06	127.66	136.86	146.72	157.30

Thus, the total gross employee expenses claimed for the control period is depicted in the table below:

The Petitioner further submits that the 7th pay is expected to be implemented in the state by next financial year i.e. FY 2017-18. Thus in addition to the above the Petitioner has also claimed arrears and implications of the 7th pay commission which are expected to be discharged in FY 2017-18 and subsequent years. Since the 7th pay is effective from 1st January 2016, hence the impact of the 7th pay over the employee expenses is computed for different years starting from FY 2015-16 (last quarter of FY 2015-16). The overall increase in the employee expenses due to implementation of the 7th pay is estimated to be approximately 15%. The Petitioner has computed the yearly impact of the 7th pay by escalating the employees expenses for FY 2015-16 at 15% and the expenses thus arrived are further escalated by the applicable escalation rate of each year to derive the 7th pay impact of subsequent years.

The impact of the 7th pay for FY 2015-16 and FY 2016-17 are expected to be discharged in FY 2017-18 and FY 2018-19 in two equal installments. Based on the above the overall employee expenses are worked out as follows:

The employee expenses capitalized during the MYT period have been considered at a normative rate of 15%, in line with the similar methodology considered by the Hon'ble Commission, in its Previous Tariff Orders.

The Petitioner respectfully submits that it has considered the pay revision impact of 15 %, however, the Petitioner reserves the right to claim any deviation in the employee expenses on account of any "recovery/adjustment of terminal benefits, implications of pay commission, arrears, Interim Relief etc." at the stage of truing up.

5.4.2 REPAIR & MAINTENANCE EXPENSES FOR FY 2017-18 TO 2019-20

The Petitioner has computed the Repair & Maintenance expenses for the control period FY 2017-18 to FY 2019-20 in accordance with provisions of Regulation 25.2 of the MYT Distribution Regulations as re-produced below:-

"Repairs and Maintenance expense shall be calculated as percentage (as per the norm defined) of Average Gross Fixed Assets for the year governed by following formula:

$$R\&Mn = Kb * GFAn$$

Where:

R&Mn: Repairs & Maintenance expense for nth year

GFAn: Average Gross Fixed Assets for nth year

Kb: Percentage point as per the norm."

Thus, R&M expenses as a percentage of Average GFA is calculated by dividing the total R&M expenses with GFA balance of the relevant year. To arrive at the percentage norm or the factor 'Kb' for calculation of R&M expenses for the MYT period the Petitioner has referred to the methodology provided in the Hon'ble Commission's approach note for calculation of O&M Expenses dated February 23rd, 2017. The WPI annual escalation index has been considered for computing the R&M expense for the Control Period.

Accordingly the Petitioner in the instant Petition has firstly worked out the norms for the base year considering the average of past five years of the R&M expenses as a percentage of average GFA balance for each year. The % base norms of R&M expenses is calculated as depicted in the table below:

Table 5.1-13: % Norm for R&M Expenses for the MYT Control Period

Particulars	2011-12	2012-13	2013-14	2014-15	2015-16	Average of 11-16
Opening GFA	3,761.63	4,265.08	4,612.64	5,062.05	5,980.51	5.94%

Kb	5.36%	5.88%	6.81%	5.71%	5.92%	

The Petitioner has considered the above worked out norm of % R&M expenses of average GFA balance as the % R&M expenses of average GFA balance for the middle year i.e. for FY 2013-14 and has thereafter applied the yearly increase in the WPI inflation Index for FY 2014-15, 2015-16 and 2016-17 to reach the base year norms, for the purpose of calculation of repair and maintenance expenses for the MYT Period. The determination of R&M for the control period is depicted in the table below:

5.4.3 ADMINISTRATIVE AND GENERAL EXPENSES FOR FY 2017-18 TO 2019-20

The Petitioner has computed the administrative and general expenses for the control period FY 2017-18 to FY 2019-20 as per the Regulation 25.3 of the MYT Distribution Regulations stated as below:-

"A&G expense shall be computed as per the norm escalated by wholesale price index (WPI) and adjusted by provisions for confirmed initiatives (IT etc. initiatives as proposed by the Distribution Licensee and validated by the Commission) or other expected one-time expenses, and shall be governed by following formula:

$$A\&G_n = (A\&G_b * WPI \text{ inflation}) + \text{Provision}$$

Where:

A&G_n: A&G expense for the year n A&G_b: A&G expense as per the norm WPI inflation: is the average increase in the Wholesale Price Index (WPI) for immediately preceding three financial years Provision: Cost for initiatives or other one-time expenses as proposed by the Distribution Licensee and validated by the Commission. "

Further the Petitioner has also considered the methodology provided in the Hon'ble Commission's approach note for calculation of O&M Expenses dated February 23rd, 2017. The Petitioner has considered the base year as '2014-15', for which the audited accounts are available as on the date of submission of the Multi-Year Tariff Petition. The Petitioner in the following table has worked out the norms depicting cost of A&G expenses per 1000' employees based on the actual A&G expenses incurred during the past five financial years:

The Petitioner has considered the above worked out norm of Rs. Crore A&G cost per 1000' Consumers as the A&G cost per 1000's consumer for the middle year i.e. for FY 2013-14 and has thereafter applied the yearly increase in the CPI inflation Index for FY 2014-15, 2015-16 and 2016-17 to reach the base year norms, for the purpose of calculation of A&G expenses for the MYT Period. The determination of Rs. Crore A&G cost per 1000' employees and thereafter the total A&G cost in Rs. Crore for the Control period is depicted in the table below:

The complete details of the capital investment schemes for FY 2017-18 and 2019-20 are provided in the MYT Business Plan of the Distribution Licensee which is being submitted along with this petition. The physical and financial progress of the ongoing and new capex schemes has also been provided in the MYT Business Plan.

Accordingly, the summary of the total Proposed Capital Expenditure for each year of the Control period is depicted in the tables below:

Table 5.1-18: Summary of Proposed Capital Expenditure during the Control Period (Rs Crore)

2019-20	865.36	370.87	173.07	1409.29

The projected capital expenditure is proposed to be funded in a debt equity mix of 70:30 which is also in line with the MYT Distribution Tariff Regulations and established philosophy of the Hon'ble Commission.

The assumptions used for projecting GFA and CWIP are as follows:

- The opening GFA and CWIP for FY 2016-17 have been taken as per the closing figures from provisional annual accounts of FY 2015-16.
- 40% the opening CWIP and 40% of investment made during the year, expenses capitalized & interest capitalized (40% of total investment) has been assumed to get capitalized during the year.
- Investment through "deposit work" has been taken for capital formation. However depreciation thereon has not been charged to the ARR in line with the policy adopted by Hon'ble Commission in its previous Tariff Orders.
- The capital investment for FY 2017-18 has been pegged at Rs. 2195.59 crore out of which works through deposit works have been envisaged at Rs. 269.63 crore.
- The Petitioner envisages a capital investment of Rs. 2664.45 crore in FY 2018-19 out of which works through deposit works have been envisaged at Rs. 327.21 crore and Rs. 1409.29 crore on FY 2019-20 out of which works through deposit works have been envisaged at Rs. 173.07 crore.
- The capital investment plan (net of deposit works) has been projected to be funded in the ratio of 70:30 (debt to equity).

Considering the aforementioned submissions, the capital formation and capital work in progress for FY 2016-17 to FY 2019-20 are presented below:

5.7 FINANCING OF THE CAPITAL INVESTMENT

The Petitioner has considered a normative gearing of 70:30. Considering this approach, 70% of the capital expenditure undertaken in any year has been considered to be financed through loan and balance 30% has been considered to be financed through equity contributions. The portion of capital expenditure financed through consumer contribution, capital subsidies and grants has been separated as the depreciation and interest thereon would not be charged to the beneficiaries.

The amounts received as consumer contributions, capital subsidies and grants are traced from the provisional accounts for FY 2015-16. Further, the consumer contributions, capital subsidies and grants for 1st Control Period have been considered to be in the same ratio to the total investments, as received by it in FY 2014-15 for which the audited accounts are available.

The table below summarizes the amounts considered towards consumer contributions, capital grants and subsidies for the MYT control period:

Table 5.1-21: Consumer Contribution, Capital Grants & Subsidies (Rs Crore)

Thus, the Petitioner submits that the capital investments proposed during the MYT period after netting off the capital investment through deposit works, has been considered to be funded through debt and equity of 70:30, as depicted in the above table.

5.8 DEPRECIATION EXPENSE

Regulation 26 of the MYT Distribution Regulations provide for the basis of charging depreciation. The relevant excerpt is reproduced below:

"26. Treatment of Depreciation:

a) Depreciation shall be calculated for each year of the control period on the written down value of the fixed assets of the corresponding year.

b) Depreciation shall not be allowed on assets funded by consumer contributions or subsidies / grants.

d) The residual value of assets shall be considered as 10% and depreciation shall be allowed to a maximum of 90% of the original cost of the asset.

Provided that Land shall not be treated as a depreciable asset and its cost shall be excluded while computing 90% of the original cost of the asset.

e) Depreciation shall be charged from the first year of operation of the asset.

The new MYT Distribution Regulations provides for calculating depreciation based on the written down value of the fixed assets of the corresponding year, whereas the previous Distribution Tariff Regulations, 2006 provides for calculation of depreciation on Straight Line Method basis. However it would also be worthy to note that though the Hon'ble Commission has revised the methodology for calculation of depreciation, the rate of depreciation for each asset category as defined in Annexure – C of the Regulations, have not been revised. However, the Petitioner for the purpose of computing the allowable depreciation has considered the same rates as specified in Annexure – C of the Regulations.

The Petitioner has considered the opening closing GFA Balance for FY 2015-16 equivalent to the closing GFA balance for FY 2014-15 as per the audited balance sheet and has thereafter added the capital additions for FY 2015-16 on the basis of provisional balance sheet available. Further to project the GFA balances for FY 2016-17, the Petitioner has considered the capitalization methodology considering 40% the opening CWIP and 40% of investment made during the year, expenses capitalized & interest capitalized (40% of total investment), assumed to get capitalized during the year.

Similar methodology has been considered by the Petitioner to arrive at the Gross Fixed Asset balances for the control period from FY 2017-18 to FY 2019-20. Further the Petitioner has computed the weighted average rate of depreciation as 7.74% based on the closing gross fixed asset base for FY 2016-17 and the depreciation rates as prescribed in Annexure-C of the MYT Distribution Regulation as mentioned below:

Table 5.1-23: Weighted Average Rate of Depreciation for MYT Control Period (Rs Crore)

As MYT Distribution Regulations provide that the depreciation shall be calculated on written down value method at the rates specified in the Depreciation Schedule of the regulations, the Petitioner to calculate the written down value of the fixed assets as on 1st April, 2017 has netted off the Opening Gross Fixe Assets by the total depreciation allowed by the Hon'ble Commission in its previous true-up orders upto FY 2013-14 and the allowable depreciation calculated from FY 2014-15 to FY 2016-17, based on the methodology prescribed by the Hon'ble Commission in Distribution Tariff Regulations, 2006. The details of year-wise Cumulative depreciation considered by the Petitioner from FY 2003-04 to FY 2016-17 is detailed in the table below:

Table 5.1-24: Cumulative Depreciation upto FY 2016-17 (Rs Crore)

Financial Year	Source	Net Allowable Depreciation (Rs. Crore)	Cumulative Depreciation (Rs. Crore)
2003-04	True-up Order	71.94	71.94
2004-05	True-up Order	117.13	189.07
2005-06	True-up Order	115.64	304.71
2006-07	True-up Order	128.07	432.78

2015-16	Revised Estimates	156.12	2,509.71
2016-17	Revised Estimates	238.82	2,748.53

Considering the above the Petitioner has worked out the opening written down value of fixed assets for FY 2017-18 and thereafter has added the value of assets capitalized during the year. The Petitioner has computed the full year depreciation on the opening written down value of fixed assets and pro-rated depreciation on the additions during the year, considering the weighted average depreciation rate of 7.74% as computed in the preceding section. The Petitioner has computed the depreciation only on the depreciable asset base and has excluded the non-depreciable assets such as land, land rights, etc.

Similar approach has been adopted by the Petitioner to work out the allowable depreciation for FY 2018-19 and 2019-20. Considering this philosophy, the gross entitlement towards depreciation has been computed as depicted in the table below:

Table 5.1-25: Gross Allowable Depreciation for 1st MYT control period (Rs Crore)

Particulars	Derivation	2017-18	2018-19	2019-20

Cumulative Depreciation	E	3,030.49	3,208.14	3,442.18
Rate of Depreciation (%)	F	7.74%	7.74%	7.74%
Gross Allowable Depreciation	((A-E)+B/2)*F	413.63	544.90	688.48

The Petitioner has also projected the depreciation on assets created out of consumer contributions, capital grants and subsidies for the 1st Control period in the same ratio as per the audited accounts of FY 2014-15. The Petitioner has reduced the equivalent depreciation in respect of depreciation on assets created out of consumer contributions, capital grants and subsidies from the Gross Allowable Depreciation to arrive at Net Allowable Depreciation for the purpose of ARR determination.

Thus, the net allowable depreciation for the 1st Control Period has been depicted in the table below:

Table 5.1-26: Net Allowable Depreciation for the 1st Control Period (Rs Crore)

Particulars	2017-18	2018-19	2019-20

Net Allowable Depreciation	177.66	234.03	295.70

5.9 INTEREST ON LONG TERM LOANS

It is reiterated that the Petitioner has considered a normative tariff approach with a gearing of 70:30. In this approach, 70% of the capital expenditure undertaken in any year has been considered to be financed through loan and balance 30% has been considered to be funded through equity contributions. The portion of capital expenditure financed through consumer contributions, capital subsidies and grants has been separated as the depreciation and interest thereon has not been charged to the beneficiaries.

मुकुट प्रसिध्द वित्त (प्रा.सि.सं.)

Allowable depreciation for the year has been considered as normative loan repayment. The weighted average rate of interest of overall long term loan portfolio for FY 2014-15 has been considered for 1st Control Period, as it seems to be fair and equitable. The interest capitalization has been considered at a rate of 23% which is consistent with the rate considered by the Hon'ble Commission in previous tariff orders.

The computations for interest on long term loan are depicted below:

Table 5.1-27: Allowable Interest on Long Term Loans for MYT Control Period (Rs Crore)

Less: Interest Capitalized	89.45	119.52	142.57
Net Interest Charged	299.45	400.12	477.29

5.10 FINANCE CHARGES

The Petitioner has projected finance charges towards expenses such as guarantee fees and bank charges to the tune of Rs. 0.69 crore, Rs. 0.72 crore and Rs. 0.75 crore in FY 2017-18, FY 2018-19 and 2019-20 respectively. The same have been computed by extrapolating the guarantee fees and bank charges derived for FY 2015-16 by using the Inflation Index of 3.89%.

5.11 INTEREST ON CONSUMER SECURITY DEPOSITS

Regulation 28 of the MYT Distribution Tariff Regulations, 2014, provides that the interest to be paid on consumer security deposits shall be as per the provisions of the Electricity Supply Code, 2005 and its subsequent amendments / addendums & the new regulations made after repeal of the same.

Further, In terms of the Regulation 4.8(3) of the Distribution Tariff Regulation, the Licensee has to pay interest to the consumers at bank rate or more on the consumer security deposit. Further, section 47(4) of the Electricity Act 2003, states that "the distribution licensee shall pay interest equivalent to the bank rate or more, as may be specified by the concerned state Commission, on

मुख्य अभियन्ता (विभिन्न)

the security referred to in sub-section (1) and refund such security on the request of the person who gave such security"

Accordingly the Petition in the instant MYT petition has computed the interest to be paid on the consumer's security deposits on the Average of opening and closing balance of the Security Deposits for the year, at SBI bank rate of 9.36%. However, the same shall be trued up based on audited accounts. The opening balances of security deposits have been considered as per closing figures of provisional accounts for FY 2015-16 and additions during the year 2016-17 is estimated in line with the projected load growth, as depicted in the load forecast model.

Rate of Interest	9.36%	9.36%	9.36%
Interest Paid / Payable on Security Deposits	44.96	48.10	51.58

5.12 INTEREST ON WORKING CAPITAL

The MYT Distribution Regulations provides for normative interest on working Capital based on the methodology outlined in the Regulations. The Petitioner is eligible for interest on working capital worked out on methodology specified in the Regulations as provided below:

"The Distribution Licensee shall be allowed interest on estimated level of working capital for the financial year, computed as follows:

- a) O&M expenses for one month.*
- b) Two months equivalent of expected revenue.*
- c) Maintenance spares @ 40% of R&M expenses for two months.*

Less:

Security deposits from consumers, if any.

Provided that the interest on working capital shall be on normative basis and rate of interest shall be equal to the State Bank Advance Rate (SBAR) as of the date on which petition for determination of tariff is accepted by the Commission."

मुख्य अधिकारी (वाणिज्य)

In accordance with the MYT Distribution Regulations, the interest on the working capital requirement is to be considered equal to the State Bank Advance Rate (SBAR) as notified on the current date i.e. 14.05%. Considering the methodology as prescribed in the MYT Distribution Regulations, the Petitioner has worked out the working capital requirement for each year of the Control period and interest thereon, as shown in the table below:

The allowable interest and finance charges are thus summarized in the table below:

5.14 PROVISION FOR BAD AND DOUBTFUL DEBTS

Regulation 29 of the MYT Distribution Tariff Regulations, prescribe the allow-ability of Bad and Doubtful Debts. The said regulations are reproduced below:

"Regulation 29

Bad and Doubtful Debts shall be allowed as a legitimate business expense with the ceiling limit of 2% of the revenue receivables provided the distribution licensee actually identifies and writes off bad debts as per the transparent policy approved by the Commission. In case there is any recovery of bad debts already written off, the recovered bad debt will be treated as other income."

Accordingly, the Petitioner in the instant Petition has considered the provision of Bad and Doubtful Debts at 2% of the average revenue receivables. Further, in the last Tariff Order the Hon'ble Commission had disallowed the Petitioner's claim for Provision for Bad and Doubtful Debts due to the absence of any clear-cut policy. It is further submitted that provision for bad & doubtful debts are accepted accounting principle even in sector like Banking where the provisioning of un-collectable dues are considered as a normal commercial practice.

Despite the Hon'ble Commission's views on this component of ARR, it is humbly prayed that the annual provisioning towards bad and doubtful debts may be allowed to the Petitioner as it is an accepted industry norm and also recognized by other State Electricity Regulatory Commissions. The amount, if any, written off towards bad debts is only adjusted against the accumulated provisions in the books, irrespective of the actual amount of bad debts during any particular year. Therefore the Petitioner maintains that this is a legitimate ARR component. As such the Petitioner has made provisions for bad debts for the 1st Control Period in line with the provisions stipulated in the MYT Distribution Regulations. The Provision for Bad and Doubtful Debts for 1st Control Period are summarized in the table below:

5.15 NON TARIFF INCOME

Non Tariff Income includes incomes such as interest on loans and advances to employees, income from fixed rate investment deposits, interest on loans and advances to licensees and other miscellaneous income from retail sources. The Petitioner has projected non-tariff income to the tune of Rs. 29.78 crore, Rs. 30.94 crore and Rs. 32.15 crore in FY 2017-18, FY 2018-19 and 2019-20 respectively. The same have been computed by extrapolating the non-tariff income booked in provisional accounts for FY 2015-16 and by using the Inflation Index of 3.89%. The same has been summarized below:

Table 5.1-32: Other Income (Rs Crore)

Particulars	2017-18	2018-19	2019-20
Non-Tariff Income	29.78	30.94	32.15

5.16 REASONABLE RETURN / RETURN ON EQUITY

Regulation 31 of MYT Distribution Regulations 2014 provides for Treatment of Return on equity. The relevant extract of the regulations is reproduced as under:

"a) Return on equity shall be computed on 30% of the capital base or actual equity, whichever is lower:

Provided that assets funded by consumer contribution, capital subsidies / grants and corresponding depreciation shall not form part of the capital base. Actual equity infused in the Distribution Licensee as per book value shall be considered as perpetual and shall be used for computation in these regulations.

b) 16% (sixteen) post-tax return on equity shall be considered irrespective of whether the Distribution Licensee has claimed return on equity in the ARR petition."

Accordingly as provided in the regulations, the Return on equity has to be computed on 30% of the capital base or actual equity, whichever is lower. However, in case of distribution licensee, as major portion of the assets is being funded through GoUP equity, the actual equity as per statement of accounts is higher than the equity being calculated at 30% of the Capital Base. Further since the Hon'ble Commission in its UPERC MYT Distribution Tariff Regulations has not defined as how the 'Capital Base' should be determined for the purpose of equity calculations, the Petitioner has therefore considered the following approach to ascertain the equity balances for each year of the MYT period:

- Closing balance of Gross Fixed Assets for FY 2016-17 has been considered as the opening Gross Capital Base for FY 2017-18.

मुख्य अभियन्ता (वाणिज्य)
दिवि०वि०नि०लि०, आगरा

- Closing balance of consumer contribution, capital subsidies / grants for FY 2016-17 is then allocated in the ratio of closing CWIP and closing GFA balance for FY 2016-17.
- To work out the Net Capital Balance eligible for the purpose of calculation of return on equity, the allocated balance of consumer contribution, capital subsidies / grants towards GFA balance of FY 2016-17, is deducted from the opening Gross Capital Base for FY 2017-18.
- 30% of the so derived opening capital base is to be considered as the Opening Equity Balance for FY 2017-18
- Thereafter, to work out the addition in equity during FY 2017-18, the increase in GFA during the year is reduced by the % of consumer contribution, capital subsidies / grants considered in the capital expenditure proposed for the year.
- The Closing Equity balance so determined for FY 2017-18 would become the opening equity balance for next year i.e. 2018-19 and so on, considering the additions in equity year on year, as defined above.

In line with the afore-stated approach, the Petitioner has worked out the Capital Base balances for each year of the MYT Period as depicted in the table below:

Table 5.1-33: Determination of Opening Equity Base for FY 2017-18

(in Rs. Crore)

Particulars	#	2017-18
Opening GFA Balance	A	7,604.02

Accordingly the Petitioner has calculated the eligible return on Equity in the following table as shown below:

5.17 CONTRIBUTION TO CONTINGENCY RESERVE

The MYT Distribution Regulations provides for contribution to the contingency reserves upto a sum not less than 0.25 per cent and not more than 0.5 per cent of the original cost of fixed assets shall be allowed annually towards such appropriation in the calculation of ARR. The contingency reserve so created shall be invested in securities authorized under the Indian Trusts Act, 1882 within a period of six months of close of the financial year and provided that no diminution in the value of contingency reserve be allowed to be adjusted as a part of tariff.

Distribution Tariff Regulations require that such Contingency Reserve shall be invested in Government securities. However, the use of such reserve is only with the prior permission of the Hon'ble Commission.

The Petitioner submits that as there is a big revenue gap between ARR and revenue forecast ,as such this component will only enhance the Gap and create extra burden on the consumers so for the present ARR, the Petitioner is not claiming any allowance under Reserve for Contingency Reserve.

5.18 APPORTIONMENT OF O&M EXPENSES

The Petitioner humbly submits that the UPPCL is the holding company of all the State Distribution Utilities and is performing the power purchase function from different generators, on behalf of all the discoms. UPPCL resorts to short term borrowings on behalf of Distribution Companies to meet the power purchase liabilities of Licensees and incurs interest expenses on behalf of such working capital loans. Also it incurs expenditure towards LC and OD charges incidental to power purchase expenses. Petitioner therefore requests the Commission to consider these expenses and allow UPPCL to claim such expenses from the Petitioner and other Distribution Companies through an internal adjustment without any impact on the ARR.

In FY 2013-14 tariff order had directed the distribution companies to consider the apportionment of the O&M expenses of UPPCL and submit the share of each discom. Accordingly, the Petitioner has worked out the O&M expenses of UPPCL for the control period considering the provisional O&M expenses as per the balance sheet for FY 2015-16 as base and extrapolating the same by using the Inflation Index of 3.89%.

Considering the above, the same have also been apportioned to all the discoms including the Petitioner in the power purchase ratio for each relevant year of the Control period. The share of

apportionment of O&M charges of UPPCL for FY 2017-18, FY 2018-19 and 2019-20 is Rs. 41.17 crore, Rs. 42.79 crore and Rs. 43.93 crore respectively. Accordingly the same have been considered as part of ARR to be recovered from retail consumers.

5.19 REVENUE SUBSIDY FROM GOUP

Regulation 38 of the MYT Distribution Tariff Regulations, 2014 provide that the Hon'ble Commission shall determine the ARR of the licensee without considering the subsidy provided by GoUP. The said regulations are reproduced hereunder:

"38. Subsidy

a) The Commission shall determine the ARR and Tariff without considering subsidy.

Provided that if the State Government declares subsidy for the categories of consumers after notification of Tariff Order, the licensee shall incorporate the same in the tariff and intimate the Commission with the revised Tariff Schedule that shall be charged if the subsidy is received in advance.

Provided further that in case the State Government declares subsidy in advance or during tariff filing proceedings and the licensee incorporates the subsidy in the petition, the Commission shall notify two tariff schedules, one with subsidy and the other without subsidy.

Provided also that the Government's subsidy provided for or declared shall be supported by documentary evidence of time schedule of payment, mode of the payment of the subsidy and categorization of the subsidy amount into subsidized consumer categories.

b) The Commission may clarify in the tariff order, post the declaration from the Government, the quantum of Government's subsidy as applicable to the fuel cost adjustment along with the range (%) of variable cost upto which the fuel adjustment cost shall not be passed to the consumers, category wise classification, mode of payment and schedule of payment etc.

c) In case of no disbursement or delayed disbursement of subsidy by the Government, the licensee shall charge consumers as per the tariff schedule which is approved by the Commission without consideration of subsidy"

Accordingly the Petitioner has prepared the instant MYT Petition for determination of Annual Revenue Requirement of the Petitioner for each year of the Control Period without considering the GoUP subsidy. The same would be submitted at the time of submission of Proposed Tariff Schedule.

5.21 RETAIL AND WHEELING BUSINESS ARR SUMMARY

Clause 36 of the MYT Distribution Regulations provide that ARR/Tariff filing by the Distribution Licensee shall separately indicate Aggregate Revenue Requirement (ARR) for Wheeling function and Retail Supply function embedded in the distribution function. Till such time complete segregation of accounts between Wheeling and Retail Supply Business takes place, ARR proposals for Wheeling and Retail Supply Business shall be prepared based on an allocation statement to the best judgment of the distribution licensee.

The Petitioner humbly submits that complete segregation of account between wheeling and retail supply has still not taken place, therefore the Petitioner has adopted the basis of allocation of the expenses in line with the methodology used by the Hon'ble Commission in its last Tariff Order.

Allocations of Consolidated ARR into wheeling & retail supply for 1st Control Period have been estimated into following table:

6. RECOVERY OF PREVIOUS YEARS GAPS TOWARDS WITHHELD DEPRECIATION

The Hon'ble Commission in its True-up Order for FY 2013-14 has stated that:

"The Commission has repeatedly given several directions to the Licensee to ensure that proper and detailed Fixed Assets Registers are maintained at the field offices. Further, the Hon'ble APTEL in Appeal No. 121 of 2010 & I.A. No. 83 of 2011 has also reinforced Commission's views and has directed the Licensee to comply with the regulations and directions issued by the Commission.

As a first step towards reprimanding the Licensee over the issue of non-maintenance of fixed asset registers, the Commission has withheld 20% of the allowable depreciation for FY 2013-14. The same would be released for recovery through tariff, upon submission of fixed asset registers up to the current year i.e., FY 2012-13 by 30th November, 2013."

Further, in its True-up Order for FY 2014-15, it again reiterated that:

"..in line with the approach adopted by the Commission in its earlier Order over the issue of non-maintenance of fixed asset registers, the Commission has withheld a higher percentage as compared to previous year i.e. 25% of the allowable depreciation for FY 2014-15. The Licensee is further directed to submit the complete details pertaining to Fixed Asset Register for FY 2013-14 along with the ARR Petition for FY 2015-16, otherwise the withheld amount may not be allowed by the Commission."

The Hon'ble Commission in this regard has also given the following directives to the discom:

"Licensee to ensure proper maintenance of detailed fixed assets registers as specified in the Distribution Tariff Regulations."

As the fixed asset registers are pending since the creation of Discom, the Commission directs the Licensee to submit a status report and provide the proposed timelines / milestones for clearing the backlog. The Commission understands that clearing the backlog would take substantive time. In order to ensure that fixed asset registers are timely and regularly prepared going forward, the Commission directs the Licensee to prepare the fixed asset registers duly accounting for the yearly capitalizations from FY 2012-13 onwards. The capitalization for the period before that may be shown on gross level basis. This dispensation is merely to ensure that the proper asset registers capturing all necessary details of the asset, including the costs incurred, date of commissioning, location of asset, and all other technical details are maintained for the ensuing years. However, the Licensee would also be required to clear the backlog in a time bound manner. Upon finalization of the Transfer Scheme and clearing of backlog, the Licensee may update the fixed asset registers appropriately by passing necessary adjustments."

In compliance to the Hon'ble Commission's directive, the Licensee has put in its best efforts to prepare the Fixed Assets Register from FY 2012-13 to FY 2014-15, duly matching with the audited accounts of the discom upto FY 2014-15. It is further submitted that the Fixed Assets Register from FY 2012-13 to FY 2014-15 have been prepared and maintained as specified in the Distribution Tariff Regulations, 2006. The complete compilation of Fixed Assets Register from FY 2012-13 to FY 2014-15 is attached herewith the Petition for the perusal of the Hon'ble Commission.

Further, the Petitioner by means of this Petition requests the Hon'ble Commission to kindly allow the Petitioner to recover the withheld depreciation amount's being disallowed in previous years ARR and True-up Orders. The summary of the depreciation amount withheld on account of non-maintenance of fixed assets register is detailed in the table below:

Table 6-1: Summary of Depreciation withheld by the Hon'ble Commission (Rs Crore)

Financial Year	Ref Order	Allowable Depreciation	Withheld Depreciation	Allowed Depreciation	Remarks
2013-14	True-up Order Dated August 1 st , 2016	327.04	65.41	261.63	Claimed in the instant Petition
2014-15	ARR and Tariff Order Dated October 1 st , 2014	392.09	98.02	294.07	Part of the True-up Gap claimed for FY 2014-15
2015-16	ARR and Tariff Order Dated June 18 th , 2015	375.56	112.67	262.89	Claimed in the instant Petition
2016-17	ARR and Tariff Order Dated August 1 st , 2016	419.76	125.93	293.83	Claimed in the instant Petition
Total		1514.45	402.03	1112.42	

Thus as discernible from the table above, the Hon'ble Commission till FY 2016-17 has disallowed a total sum of Rs. 400.44 crore on account of depreciation being withheld due non-maintenance of fixed assets registers. Now since the discom has put in its best efforts to prepare the Fixed Assets Register from FY 2012-13 to 2014-15, it requests the Hon'ble Commission to kindly allow the depreciation been withheld to the tune of Rs. 98.02 crore as claimed in the True-up Petition filed for FY 2014-15 and the balance withheld depreciation of Rs. 302.42 crore shall be allowed as a part of total revenue gap upto FY 2017-18. The Fixed Assets Registers for FY 2015-16 to 2016-17 will be submitted by the Petitioner at the time of filing of True-up petition for FY 2015-16 to 2016-17, once the financial statements are being audited and available for submission before the Hon'ble Commission.

7. TREATMENT OF REVENUE GAP

The Petitioner would like to humbly submit that the Hon'ble Commission approves tariff which is uniform throughout the state. As a consequence, the Petitioner cannot apply for tariff rationalization in its supply area by separately filing for revision of tariff. The Tariff Order for the FY 2016-17 was issued on August 1st, 2016 and the revised retail tariff was implemented after due notification. The Petitioner has evaluated the following revenue gaps during the control period:

Outlined below is the Revenue Gaps determined for the control period based on the existing tariff and proposed tariff:

Table 7-1: Meeting the Gap for the Control Period (Rs Crore)

Particulars (Rs Crore)	2017-18	2018-19	2019-20
Annual Revenue Requirement	14,596.19	18,436.13	21,573.51

Revenue Gap	3,227.56	4,763.61	6,070.42

In addition to the above, the revenue gap as per true up petition filed for FY 2014-15 is to the tune of Rs. 2408.15 crore. Further as detailed in the previous section, the recoverable revenue gap on account of depreciation being withheld due non-maintenance of fixed assets registers, till FY 2016-17, is to the tune of Rs. 302.42 crore. Thus, the total revenue gap which needs to be recovered by the Petitioner from its consumers during the Control Period excluding carrying cost is depicted in the table below:

Revenue Gap for the 3 rd Year of the Control Period – FY 2019-20	6,070.42
Total Revenue Gap	16,772.16

Additionally, the un-recovered revenue gap towards prior years truing up to the tune of Rs. 9,956.42 crore was approved by the Hon'ble Commission in the FY 2016-17 tariff order dated August 1st, 2016. The same needs to be recovered by the Petitioner along with carrying cost.

It is quite discernible from the above table that given the significant amount of revenue gap, the whole impact may not be able to be passed through a revision in retail tariffs, as it may lead to massive tariff shock.

8. PRAYERS

The petitioner humbly prays that the Hon'ble Commission may be pleased to:

- Admit the accompanying Annual Revenue Requirement for FY 2017-18, 2018-19 & 2019-20 and True up Petition for FY 2014-15.
- Approve the Annual Revenue Requirement for FY 2017-18, 2018-19 & 2019-20 and True up Petition for FY 2014-15
- Allow the Petitioner to procure power through bilateral contracts/exchanges/short term contracts to maintain the desired schedule of supply in the state in case the power procurement from long term sources falls short of levels envisaged and accordingly allow the Petitioner to claim Incremental Power Purchase Cost on such purchases on quarterly basis and allow the variations in final truing up if any balance adjustment remains
- Allow the Petitioner an internal adjustment on account of the power purchase expense and apportionment of the O&M expenses and interest and finance charges incurred by UPPCL (being the Tradeco and holding company of the state distribution companies including the Petitioner) at the year-end, such that full cost recovery is allowed to UPPCL without imposing any impact on the ARR approved by the Hon'ble Commission.
- Approve the Capex Schemes as proposed by the Petitioner for the control period, the capital expenditure for which has been projected more than Rs. 10 Crore.
- Allow the recovery of revenue gap on account of depreciation being withheld due non-maintenance of fixed assets registers till FY 2016-17, to the tune of Rs. 302.42 crore.
- In the interim till the contracted capacities are finalized, it is humbly prayed that an internal adjustment bill may be allowed to be raised within the subsidiary companies at the year-end so that the Distribution utility recovers only its costs and no unjust enrichment is allowed to it, on account of postage stamp tariff method based billing.
- Allow the Petitioner to claim dearness allowance on actual expenditure basis, in case the increase in rate of dearness allowance, announced by the GoUP exceeds the escalation index for the relevant year, as it is an uncontrollable cost.
- Permit the Petitioner to suitably approach the Hon'ble Commission for revision of the O&M Expenses upon finalization of the pay revision of the employees.
- Allow the Petitioner to claim discount to consumers at actuals, based on audited accounts at the time of true up for the control period.
- Allow the Petitioner to modify the basis and allocation of revenue subsidy among subsidiary distribution companies based on the decision by the GoUP. Allow the petitioner to add/change / alter / modify this application at a future date.
- Issue any other relief order or direction which the Hon'ble Commission may deem fit.
- Allow the petitioner to add/change / alter / modify this application at a future date.

(i) दर अनुसूची एलएम0वी0-6 से आवरित लघु एवं मध्यम उद्योग उपभोक्ता (ii) सम्बन्धित उप महाप्रबन्धक द्वारा नामित एक अन्य सहायक अभियन्ता
- (iii) सम्बन्धित अवतर अभियन्ता

यह समिति सम्बन्धित उपभोक्ता के परिसर पर जा कर उस का विद्युत सम्बन्ध के विच्छेदन की तिथि निर्धारित कर अपनी संस्तुति वितरण खण्ड के अधिशासी अभियन्ता के माध्यम से सहायक अभियन्ता (राजस्व) को प्रस्तुत करेगी। इस प्रकार के प्रत्येक मामले में सहायक अभियन्ता (राजस्व) सम्बन्धित बिल क्लर्क/ हेड बिल क्लर्क से अवास्तविक बकायों की धनराशि के आंकड़े प्राप्त करके इसका विवरण संलग्न प्रारूप-1 में प्रत्येक सप्ताह सम्बन्धित उप महाप्रबन्धक (वितरण) मंडल को प्रस्तुत करेंगे।

5- स्थाई विच्छेदन की प्रक्रिया को अन्तिम रूप देते समय यदि उपभोक्ताओं के संयोजनों पर सामग्री नहीं पाई जाती है तो ऐसे विभिन्न मामलों में निम्नवत कार्यवाही की जायेगी :-

(ग) जिन उपभोक्ताओं के संयोजन लाइन बनाकर दिए गये थे और उन संयोजनों पर सामग्री उपलब्ध नहीं है तो ऐसे मामलों में सामग्री के/उसके मूल्य के सम्बन्ध में निर्णय वितरण खण्ड के अधिअभि0 द्वारा अपने विवेक से लिया जायेगा जो अन्तिम होगा।

6- पूर्व आदेशों के अनुसार किसी भी विच्छेदित संयोजन की बिलिंग संयोजन के अस्थाई विच्छेदन के 6 माह बाद तक की जानी है। वास्तविकता यह है कि यह बिलिंग विच्छेदन की तिथि के वर्षों बाद तक की जाती रही है तथा बहुत से मामलों में अभी भी जारी है। अस्थाई विच्छेदन की तिथि के 6 माह के पश्चात की गई बिलिंग गलत बिलिंग की श्रेणी में गनी जायेगी जिसे ठीक करने का पूर्ण अधिकार अधिशासी अभियन्ता को है। अधिशासी अभियन्ताओं का यह दायित्व होगा कि वे इस प्रकार की गलत बिलिंग को ठीक करने की कार्यवाही आगामी दो माह (जून एवं जुलाई 2004) में पूर्ण कर लेंगे एवं भविष्य में इस प्रकार की गलत बिलिंग न हो इस पर पूर्ण नियन्त्रण रखेंगे। जिन मामलों में स्थायी विच्छेदन के फाइनलाइजेशन के समय अवास्तविक बकाया एवं गलत बिलिंग के कारण एकुमुलेटेड एरियर्स को एक साथ समाप्त करने की कार्यवाही की जा रही हो उनमें समाप्त होने वाले एरियर को फिक्स्टिडियस एरियर मानकर समाप्त किया जाये।

९. उपभोक्ताओं से बकाया राशि जो कि सक्षम अधिकारी/समिति द्वारा अप्राप्य घोषित कर दी जाय, उस राशि को पूर्व प्रचलित लेखाशीर्ष 79.410 (अपलिखित अशोध्य ऋण-उपभोक्ताओं से बकाया) को डेबिट तथा लेखा संग्रह 23 के सम्बन्धित लेखाशीर्षों को क्रेडिट किया जायेगा।

- 35 AS-28 requires estimation and provision for impairment loss represented by amount by which the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is higher of the assets net selling price and its value in use based on the present value of estimated future cash flows expected from the use of assets and its disposal at the end of its useful life. It is worth mentioning here that assets of the Company have been accounted for at their historical cost and most of the assets are very old. Thus the impairment of assets is unlikely in the Company because of the fact that the recoverable amount of the assets is higher than its present accounted value.
- 36 The figures shown in the Balance Sheet, Profit & Loss Account and Notes have been rounded off to the nearest rupee.
- 37 Previous year figures have been regrouped, rearranged and reclassified wherever considered necessary.
